PROFILE SUMMARY

Hardworking Medical Laboratory Scientist with practical knowledge and hands-on experience in carrying out routine and special medical laboratory tests and diagnoses. Adept at manual analysis, equipment handling, automated testing, reagent preparation, quality control, laboratory documentation, and safety protocols. Possess sound interpersonal skills, and ability to work across multiple laboratory departments. Proficient in written and verbal communication with ability to speak English, Hausa and Berom.

SKILLS & COMPETENCIES

- | | | |
|------------------|-------------------------|----------------------------|
| • Haematology | • Sample Sorting | • Microbial Identification |
| • Autoanalyzer | • Body Fluid Analysis | • LIMS & MS Suite |
| • Blood Banking | • Serology & Microscopy | • CD4 Count |
| • Antimicrobial | • Compatibility Testing | • Equipment Calibration |
| • Susceptibility | • Spectrophotometry | • Laboratory Chemistry |
| • Phlebotomy | • Information | • Multitasking |
| • Immunoassay | • Management | • Problem Solving |

PROFESSIONAL WORK EXPERIENCE

Medical Laboratory Scientist | St. Gerald Hospital Kaduna
[April 2021 - Present]

- Educate and instruct patients on standard urine, sputum, semen and faecal sample collection procedures.
- Performs phlebotomy and process blood samples for serum and plasma units for different tests.
- Conducts manual and automated laboratory tests in biochemistry, haematology, microbiology, immunology, coagulation and blood banking.
- Carryout routine laboratory documentation, quality control log check, result dispatch, and other entries.
- Participate in routine equipment maintenance, calibration, troubleshooting, and trainings.

Intern Medical Laboratory Scientist | Jos University Teaching Hospital
December 2019 - February 2021|

- Sorted, labeled, and prepared specimens for analysis while assisting the Laboratory Manager.

- Carried out both basic and advanced medical laboratory diagnoses across chemical pathology, microbiology, histopathology, haematology and blood banking laboratory departments in the facility.
- Gained experience in CD4 count test and sample processing for viral load HIV/AIDS testing at **AIDS Prevention Initiative in Nigeria (APIN-JUTH)** - |September 2020 - October 2020|
- Gained experience in Tuberculosis diagnosis including Gene Xpert testing, culture and AFB microscopy at the **North Central Tuberculosis Reference Laboratory (JUTH)** - |September 2020 - October 2020|

EDUCATION

BMLS, Medical Laboratory Science | University of Jos
|June 2019|

PROFESSIONAL MEMBERSHIP & LICENCE

Member | Association of Medical Laboratory Scientists in Nigeria (AMLSCN)

CERTIFICATIONS & TRAININGS

Member/Data collector, NCDC-NYSC COVID TEAM @ NYSC Orientation camp kaduna
|September 2021-December 2021|

Certificate in Healthcare and Laboratory Safety (Pegisol consultancy)
|March 2022|

Certificate in Equipment Management (Pegisol consultancy)
|May 2022|

HOBBIES & INTERESTS

Reading | Medical Technology | Travelling | Biomedical Science | Cooking
