Abuja.

PROFESSIONAL SUMMARY

I am a capable, committed, and self-assured medical laboratory scientist with experience in clinical laboratory skills and also adept at analyzing laboratory assays, resolving complex clinical problems, and evaluating clinical data. I pride myself on being a dependable, patient-focus leader with exceptional organization, communication, and relationship management skills.

SKILLS

- Venipuncture and capillary puncture.
- blood collection and handling safety.
- Blood sample storage.
- Patient and donor care.
- Excellent communication skills.
- Quality assurance and control.
- Skill in the use of laboratory equipment.
- Microsoft office.

WORK EXPERIENCE

Medical laboratory scientist

Stripes specialist hospital, Abuja (August – present)

- Sample collection and analysis.
- Evaluate quality control inside the laboratory.
- Checking vital signs before sample collection.
- Utilizing common laboratory tests and measurement controls.

Medical laboratory scientist, Federal medical center, Abuja (February 2021– October 2021).

- Executed and analyzed tests in areas including chemistry, hematology, urinalysis, serology, histology, and bacteriology to aid physicians in diagnosing and treating disease.
- Consistently commended for the timely, high-quality completion of both routine and special laboratory assays of patient specimens (including blood and other body fluids, skin scrapings, and surgical specimens).
- Ensured test-result validity before recording/reporting results, earning a reputation for meticulous attention to detail.
- Demonstrated the ability to communicate test results effectively with physicians, pathologists, and nursing staff as a member of the interdisciplinary team focused on providing exemplary quality of care.
- Evaluated quality control within the laboratory using standard laboratory tests and measurement controls.

Graduate Scientist Intern- University of Nigeria Teaching Hospital (UNTH), Enugu State (May 2019 – May 2020)

- Operated and calibrated an assortment of laboratory/testing equipment and performed various chemical, microscopic and bacteriologic tests.
 - Performed stat and routine testing on a variety of specimens quickly and accurately.
 - Quickly mastered Mythic 22 full blood count machine.
 - Assisted with the Covid-19 testing with a Mic PCR machine.
 - Assisted with the Rubella and measles testing using the ELISA method.
-

EDUCATION
