A Registered Midwife with of a complete three (3) year training program in midwifery education in FCT College of Nursing Sciences Gwagwalada, Abuja. As an inspiring healthcare professional with a deep-rooted passion for midwifery, I am dedicated to contributing compassionate and patient-centered care to expectant mothers.

KEY STRENGTH

- **Compassionate Caregiver:** Demonstrated ability to provide compassionate and empathetic care to expectant mothers, creating a supportive environment during pregnancy, labor, and postpartum periods.
- **Clinical Expertise:** Proficient in conducting antenatal assessments, monitoring fetal development, assisting in labor and delivery, and providing postpartum care, ensuring the health and well-being of both mother and baby.
- **Effective Communication:** Skilled in effectively communicating with patients, families, and healthcare teams to ensure clear understanding of treatment plans, procedures, and emotional support needs.
- **Problem-Solving Skills:** Proven ability to handle unexpected situations during labor and delivery, utilizing critical thinking and quick decision-making to ensure the safety and comfort of mother and baby.
- **Advocacy:** Strong advocate for women's health rights, advocating for informed choice, autonomy, and respectful maternity care practices.
- **Cultural Sensitivity:** Culturally sensitive approach to patient care, respecting diverse backgrounds and beliefs while delivering personalized care tailored to individual needs.
- **Team Collaboration:** Collaborative team player, working effectively with obstetricians, nurses, and other healthcare professionals to provide comprehensive and coordinated care throughout the maternity journey.
- **Continuous Learning:** Commitment to ongoing professional development and staying updated on the latest evidence-based practices and advancements in midwifery care to deliver high-quality, evidence-based care.
- **Patient Education:** Proficient in providing comprehensive education to expectant mothers and their families on prenatal care, childbirth preparation, breastfeeding, newborn care, and postpartum recovery, ensuring they feel informed and supported.
- **Emotional Support:** Skilled in providing emotional support and counseling to expectant mothers and families, addressing anxieties, fears, and emotional challenges associated with pregnancy, childbirth, and postpartum adjustment.
- **Attention to Detail:** Meticulous attention to detail in monitoring maternal and fetal health indicators, recognizing subtle changes and potential complications early, and taking proactive measures to ensure optimal outcomes.
- **Crisis Management:** Demonstrated ability to remain calm and composed during high-stress situations, such as emergency deliveries or obstetric complications, effectively managing crises while maintaining focus on patient safety.
- **Advocacy for Evidence-Based Practice:** Strong advocate for incorporating evidence-based practices into clinical care, promoting the use of research findings and best practices to enhance the quality and safety of maternity care delivery.

- Flexibility and Adaptability: Flexible and adaptable in responding to varying patient needs, changing clinical situations, and evolving healthcare protocols, ensuring seamless continuity of care and positive patient experiences.
