WORK HISTORY

Staff Nurse

October 2022 – Till Date

EHealth Africa (EHA Clinics, Abuja)

EHA Clinics is a world-class primary health care service provider located in Nigeria, with aim to bridge the gap between patients and primary healthcare services in any setting: the clinic, the home or through innovative online and mobile solutions. All clinics are equipped with the latest healthcare technologies and the most dedicated team of healthcare professionals, providing a unique range of patient-centric services.

Responsibilities but not limited to:

- Delivered Oxygen through the oxygen mask and nasal cannula.
- Administered vaccines using the standard schedule for all age groups.
- Prepared patients and assisted with patient examinations and therapies.
- Carried out basic phlebotomy procedures as required during patient care.
- Handled wound and pressure ulcer assessment, dressing, and evaluation.
- Demonstrated proficiency in using electronic medical records (EMR) to update and maintain accurate patient records.
- Effected nursing care plans for quality patient management using EMR.
- Carried out diagnostic procedures such as ECG and spirometry assessment.
- Ensured public sensitization on the need to stay safe as regards the pandemic.
- Monitored and coordinated maintenance of equipment operation and inventory.
- Demonstrated physical dexterity and accuracy to undertake a range of clinical procedures.
- Seamlessly handled critical care environments and developed more by learning from others.

- Adhered to infection-control protocols and helped promote adherence across members of staff.

Staff Nurse (Surgical Ward)

January 2022 – September 2022

44 Nigerian Army Reference Hospital, Kaduna

This is a leading tertiary healthcare institution in Kaduna dedicated to providing medical, surgical, dialysis, intensive, obstetrics and gynecological care with a team of highly qualified health professionals. It has about 400 bed spaces ranging from shared rooms to private rooms.

Responsibilities but not limited to:

- Provided nursing care to patients with post-surgical procedures, and acute/chronic medical illnesses.
- Washed and sterilized hospital equipment.
- Performed routine observations of vital signs and escalated concerns,
- Inserted cannulas for IV fluids and medications, and monitored patient symptoms.
- Performed wound care, collected urine and blood samples for laboratory testing, monitored vital signs, and alerted physicians to changes in patient's condition.
- Coordinated patient care assignments, maintained drug accountability, and ensured proper documentation and equipment maintenance.
- Worked as assistant team lead, ensuring staff compliance to policies and procedures regarding the operations of the unit.
- Inventoried daily supplies of ward medications and consumables as well as their expiry dates.

Staff Nurse (Accident and Emergency)

September 2020 – December 2021

44 Nigerian Army Reference Hospital, Kaduna

- Managed numerous difficult emergency situations with minimal fatalities.
- Monitored and recorded patients' temperature, weight, pulse, and respiration.
- Completed paperwork, recognizing discrepancies and promptly addressing them for resolution.
- Conducted frequent health checks to measure the effectiveness of treatment and recovery plan.
- Consistently replaced bandages, dressings, and binders to care for wounds and encourage healing.
- Built strong relationships with patients which helped enhance care and improved patients' wellbeing.
- Offered practical advice towards promotion of self-care as well as general health education.
- Closely Examined patients' medical history, medication allergies, physical condition, and test results to determine proper care and procedures based on hospital protocol.
- Monitored patients' health, behavioral, and physical changes, reporting concerns to the ward supervisor.
- Worked flexible hours across nights, weekends, and holiday shifts and also exceeded goals through effective task prioritization.
