Tel: 09032519310

Email: toromadefaith2000@gmail.com

www.linkedin.com/in/faith-toromade-1a9aaa1a2

Research Interest

Cancer biology
Molecular biology
Biological sciences

Education

Bachelor of Medical laboratory Science (B.M.L.S), Second Class Honors(Upper Division- 4.13/5.00)

Ladoke Akintola University of Technology,Ogbomoso, Nigeria. [2013-2021]

Dessertation: Effect of Calabash chalk on some haematological parameters in female wistar rats.

Advisor: Dr Chris Igbeneghu.

Continue education

- Introduction to cancer biology [2023]
- Essential epidemiology tools for public health practice. [2023]
- Essentials of global health. [2023]
- Nigeria Center for Disease Control COVID-19 IPC Online course [2022]
- LAUTECH Information and Communications Technology (ICT)training. [2012]

Research Experience

Undergraduate research

Dessertation: effect of calabash chalk on some heamatological parameters in female wistar rat

Supervisor: Dr. Chris igbeneghu

- Participated in all phases of the research, including planning, preparation, sample collection.sample analysis, evaluation and data analysis.
- Analysed clinical samples using mythic kx 21N to analyze the haematological parameters of the female wistar rat

INSTITUTE OF HUMAN VIROLOGY NIGERIA (IHVN) ABUJA--April 2022

Responsibilities: Research on Communicable Diseases among HIV/AIDS Patient in Nigeria IHVN Nigeria (Institute of Human Virology Nigeria)

- Providing information for patients diagnosis especially HIV patients using polymerase chain reaction (PCR) machine to quantify their viral load.
- Proper recording of patient's information and carefully analysing patient test on chemical pathology and haematology sample in molecular analysers such as Cobas 119, Miura 200, Sysmex XE-2100 e.t.c.
- Accurately entering patient's samples collected from the field into the system. Logistics Management Information System (LMIS)
- Ensured standard and current practices are in place for maintaining high quality laboratory services, including calibration standardization and maintenance of automated or semi-automated instruments following established procedures.
- Writing technical and consultancy reports of the activities conducted, collate summaries of data pick up, retesting verification, SPI-RT assessment conducted and share with so and co.
- Participate in EQA and proficiency testing activities.
- Support in ensuring compliance and implementation of laboratory protocols for all lab technicians and assistance involved with the lab function, including maximizing the use of available resources.

PUBLIC HEALTH DEPARTMENT- June 2022

Responsibilities: Research on disease epidemiology,

Environmental health and disease control.

- Public health department has a mandate to provide comprehensive public health services to residents. This achieved by quick response to disease detection, research, surveillance, protection and developing better approach to improve the quality of life.

Awards

- Cowbell competition award. [2012]
- Women for change initiative award. [2012]
- Overall best graduating student Mercy land school. [2006]
- Kubwa General Hospital, Best intern Award. [2022]

Working Experience

Ministry of budget and national planning

National youth service Corp(NYSC)

November till

present

Job title: medical laboratory scientist

Work as a Medical Laboratory Scientist in haematology and blood transfusion science.

- Examine and analyze various human samples for diagnostic purpose
- Utilize microscope, cell counter, and other high precision laboratory equipment for clinical diagnosis
- Design of Standard Operative Procedure (SOP)
- Supervise Medical Laboratory Science Interns and Students on duty

Kubwa General Hospital, Kubwa | Abuja

Graduate internship

Job title: Medical Laboratory Scientist

October 2021-october2022

Analyse samples in different units (Chemical Pathology, Haematology, and Medical Microbiology).

- Report laboratory test results following agreed policies and standard operating procedures (SOPs)
- Prepare reports and presentations for internal seminars.
- Maintain automated equipment following manufacturer's guidelines.
- Collect, label, and Register samples.

Uniosun Teaching Teaching Hospital, Osogbo Abuja

Undergraduate internship

2017- 2022

Analyse samples in different units (Chemical Pathology, Haematology, and Medical Microbiology).

- Report laboratory test results following agreed policies and standard operating procedures (SOPs)
- Prepare reports and presentations for internal seminars.

- Maintain automated equipment following manufacturer's guidelines.
- Collect, label, and Register samples.

Seminar presentation

Safety procedures in the laboratory

The department of chemical pathology Kubwa General Hospital Feb 2022

Prevalence of anaemia among pregnant women attending kubwa General Hospital

The department of Heamatology, Kubwa General Hospital, march 2022

Hematogenous pigment

The department of Histopathology, Asokoro district Hospital. August 2022

Conference Attended

A- 2 day continuous professional development program [June 2022]

Optimizing medical laboratory data for desicion making and health planning.

Ideal Student Unionism.

[June

2021]

participated in a leadership seminar on student Union Reform organized by office of Dean of students' Affairs in conjunction with LAUTECH Alumni Association (world wide).

Professional Affiliations

Association of medical laboratory science coucil of Nigeria. [2021 till date]

Member, Association of Medical Laboratory Scientists of Nigeria [2021till date]

Member of medlabconvo. [2019 till date]

Member of young medical laboratory scientist forum. [2019 till date]

Professional Service

Abuja central medical store (ACMS)

[2022]

ACMS deals the responsibility of procurement and supply of medical items,

consumables and medical equipment to hospitals. they are logistics department that help with procurement of medical equipment , reagents, drugs etc.

Optimising medical laboratory data for decision making and health planning. [2022]

Awarded a certificate as a participant in the youth health action network. Theme is : leveraging research as tools for strengthening health systems in sub- Saharan Africa. [2022]

Community Service

Rotaract club member.	2020 til date
youth foundation line for social development	2022 til date

Skills

- Data collection and organization.
- Proficient knowledge and use of scientific and automated laboratory equipment such as , Sysmex analysers, mythic analyzer, miuria analyzer etc
- Skilled in performing and interpreting laboratory test analysis.
- Molecular biology technique.
- Skilled in sample collection
- Proficient in accurate analysis of clinical samples and accurate interpretation of result.
