HOBBIES

- Acquiring new knowledge
- Listening to news
- Watching sporting events

EDUCATION

1. National Hospital, Abuja

FMC(Paed), 2018

2. Lagos State University College of Medicine, Ikeja

MBBS, 2008

3. National Postgraduate Medical College of Nigeria

In View: Doctor of Medicine (MD)

4. James Lind Institute, Geneva, Switzerland

In View: MSc, MPH (Maternal and Child Health)

WORK EXPERIENCE

1. Alliance Hospital, Abuja

As Consultant Paediatrician

February 2021 – till date

- Caring for preterm neonates (extreme to late preterm), term neonates, and older children on out- and in-patient bases
- Teaching doctors, medical students, and nurses
- Formulating evidence-based protocols for patient care
- Supervising collection of clinical data
- Preparing scientific papers for presentation at conferences
- Preparing papers for publication in Peer-Review Journals

2. Médecins Sans Frontières (Doctors without Borders). Herat Regional Hospital, Afghanistan

As Consultant Paediatrician

July 2020 – January 2021

- Cared for under-5 children at Herat Regional Hospital, Afghanistan

- Supervised paediatricians and medical officers
- Recruited and trained new paediatricians
- Anchored clinical meetings
- Discussed with medical sub-specialists via telemedicine
- Supervised Infection Prevention and Control programme
- Supervised collection of clinical data

3. St Francois Medical Centre, Abuja

As Consultant Paediatrician

September 2019 – June 2020

- Cared for neonates and older children on out- and in-patient bases

4. National Hospital, Abuja

As Fellow in Paediatrics department

June 2019 – August 2019

- Cared for neonates and older children on out- and in-patient bases
- Taught resident doctors, house officers, and medical students

5. London School of Hygiene and Tropical Medicine. Kambia Government Hospital (KGH), Sierra Leone

As Consultant Paediatrician

November 2018 – May 2019

- Cared for children participating in the Ebola vaccine clinical trial on out- and in-patient bases
- Supported the Paediatrics department of KGH
- Trained clinical staff on basic clinical skills and Emergency Triage Assessment and Treatment (ETAT)
- Supervised collection of clinical data

LEADERSHIP EXPERIENCE

1. Principal Investigator:

- Identifying challenges in implementing child rights instruments in Nigeria: A nationwide survey of knowledge, perception, and practice of child rights among doctors and nurses

ii. Etiologic and antimicrobial susceptibility profiles of bacterial urinary tract infection and bacterial enteritis among children at a private multi-specialty healthcare facility in Abuja, Nigeria: a 5-year comparative review

2. **Head:** Department of Paediatrics, Alliance Hospital, Abuja (Current)
3. **Supervising Paediatrician:** Inpatient Therapeutic Feeding Centre (ITFC), Herat, Afghanistan
4. **Supervising Paediatrician:** Kambia Government Hospital, Sierra Leone
5. **Deputy Chief Registrar:** Department of Paediatrics, National Hospital, Abuja
6. **Coordinator:** Mock fellowship examinations (Parts 1 and 2), National Hospital, Abuja

Reference letter: Dr Qadri Adeleye

To Whom It May Concern

Dear Sir/Madam,

I am delighted to write this reference, confirming that Dr Qadri Adeleye worked with the London School of Hygiene and Tropical Medicine (LSHTM) as a Consultant Paediatrician from 20th November 2018 to 20th May 2019. During this period, he worked with the LSHTM EBOVAC project team, and was based at Kambia Government Hospital (KGH), in the town of Kambia, in Kambia District, Sierra Leone.

During his time with LSHTM, Dr Adeleye performed his duties with distinction, showing high levels of expertise, commitment, dedication, and reliability, and he quickly became well known for his constant readiness to help colleagues even during his free time. His efforts led to improved paediatrics services at the hospital, including substantial support to the obstetrics team through expert newborn care. He undoubtedly contributed to saving many lives that would have been lost without his exceptional commitment.

Qadri also rapidly gained a reputation as a skilled teacher and trainer. This attribute, combined with his quiet and effective leadership style, enabled him to motivate colleagues, and he made a key contribution to building up the skills and confidence of the staff that he worked with at KGH. He is a well-organised and disciplined individual who kept careful records, and always provided impressive presentations whenever he was called upon to do so.

Furthermore, due to his amiable and thoughtful personality, Qadri proved to be a highly valued and respected member of the LSHTM group based in Kambia. For all, it was a pleasure to work with him.

Therefore, I enthusiastically and unreservedly recommend Dr Qadri Adeleye to any person or organisation. If any further information is needed, please do not hesitate to contact me.

With kind regards,

A handwritten signature in black ink, appearing to read 'David Ishola'.

Dr David Ishola
